

The background of the advertisement is a photograph of a warehouse. In the foreground, a worker is visible, slightly out of focus, working with cardboard boxes. The shelves are filled with more boxes. In the lower right foreground, there is a close-up of a red tesa 4713 CST tape dispenser with two rolls of brown paper tape. One roll is standing upright, showing its blue core, and the other is lying flat, showing the red and white tesa logo on its inner liner.

NOW AVAILABLE: tesa® 4713 CST WITH PAPER FROM SUSTAINABLE SOURCES

Reliable, competitive and environmentally friendly

- High-performance packaging tape for light-weight cartons
- Competitive solution suitable for industrial applications
- Backing material made with responsibly sourced, FSC®-certified paper
- Recycling-friendly tape according to INGEDE Method 12

EFFICIENT AND ENVIRONMENTALLY FRIENDLY

Packaging materials must be reliable and competitive. But there is also a growing demand for sustainable solutions. tesa® 4713 is designed to meet all three of these requirements.

This high-performance packaging tape offers a good initial tack and strong adhesion even on recycled cardboard. It is temperature and humidity resistant, hand tearable, and easy to unwind.

tesa® 4713 is an environmentally friendly solution as it is made from responsibly sourced, FSC®-certified paper. This tape can be disposed together with the cardboard without disturbing the recycling process

Product features

- High reliability for smooth processes
- Crepe paper backing and natural rubber adhesive
- Available in brown and white
- Printable for branding or advertising

For light-weight packaging

Excellent adhesion on different types of recycled cardboard

For manual and automatic application

FSC®-certified paper CST

Product	Backing	Type of adhesive	Color	Adhesion to steel [N/cm]	Total thickness [µm]	Tensile strength [N/cm]
tesa® 4713	FSC®-certified paper	Natural rubber	● ○	2.8	125	30

Reduce and recycle

Ideally, this flyer should not have been printed. If paper products are unavoidable, the second-best option is to use responsibly sourced, e. g. FSC®-certified paper and recycle the product after use.
